ID	Description	Environment	Pre-conditions	Steps to reproduce	Expected result	Post-conditions	Status	Comments	Screenshot
LOG1	Sign in online using “sign in” button with proper e-mail adress and associated password	Win7 HP, SP 1 x64	Opened GOG Galaxy 1.2.54 Beta, must not be logged in	1. Click “sign in” button 2. Enter michalkolosowski@gmail.com into upper box 3. Enter “caramba1” into lower box 4. Click “login now” button	User succesfully logged in	GOG Galaxy opened on start page with logged in user	passed		
LOG2	Sign in online using “connect” button with proper e-mail adress and associated password	Win7 HP, SP 1 x64	Opened GOG Galaxy 1.2.54 Beta, must not be logged in	1. Click “connect” button 2. Enter michalkolosowski@gmail.com into upper box 3. Enter “caramba1” into lower box 4. Click “login now” button	User succesfully logged in	GOG Galaxy opened on start page with logged in user	passed		
LOG3	Sign in offine	Win7 HP, SP 1 x64	Opened GOG Galaxy 1.2.54 Beta, must not be logged in, system offline	1. Click “sign in” or “connect” buton	User cannot log in, message “You cannot sign in while offline”is shown	GOG Galaxy opened on start page, user not logged in	failed	User cannot log in, but message states “an error occurred while loading page” which misses the point	LOG4	Sing in via Facebook	Win7 HP, SP 1 x64	Opened GOG Galaxy 1.2.54 Beta, must not be logged in	1. Click “sign in” button 2. Click “continue with Facebook” button	User succesfully logged in	GOG Galaxy opened on start page with logged in user	failed	Program redirect user to default browser and opens https://login.gog.com/login_process/ which is not necessary and annoying. User's name lack non latin diacritical signs	
LOG5	Sign in after changing account, pass picture captcha test	Win7 HP, SP 1 x64	Opened GOG Galaxy 1.2.54 Beta, must not be logged in, must be logged in on previous or current session	1. Click “sign in” or “connect” button 2. Click “change account” button 3. Enter michalkolosowski@gmail.com into upper box 4. Enter “caramba1” into lower box 5. Check “I'm not robot” box 6. Pass captcha picture test 5 times in a row	User succesfully logged in	GOG Galaxy opened on start page with logged in user	passed	Even knowing that the test is passable we should consider captcha part as a very problematic. This puzzle is too complex, difficult and taking too much time. I persuaded 5 people to solve it and they wasted approximately 3 minutes to prove that they are humans.	
LOG6	Sign in after changing account, pass audio captcha test	Win7 HP, SP 1 x64	Opened GOG Galaxy 1.2.54 Beta, must not be logged in, must be logged in on previous or current session	1. Click “sign in” or “connect” button 2. Click “change account” button 3. Enter michalkolosowski@gmail.com into upper box 4. Enter “caramba1” into lower box 5. Check “I'm not robot” box 6. Click “get an audio challenge” icon 7. Pass audio tests	User succesfully logged in	GOG Galaxy opened on start page with logged in user	failed	Clicking “get an audio challenge” icon does'n give that challenge, instead error message is shown (see screenshoot)	LOG7		Win7 HP, SP 1 x64

Logowanie do gog galaxy po uprzednim wpisaniu nieprawidłowego hasła. przy pierwszym obrazku captcha nieprawidłowe zaznaczenie pól, przy drugim również. Kolejne prawidłowo.
Sekwencja kolejnych captch niezależnie czy zaznaczam prawidłowo czy nie nie kończy się (60 prób).

Zmiana hasła: przy wprowadzeniu hasła nie spełniającego warunków bezpieczeństwa pojawia się komunikat “to hasło nie jest bezpieczne” jednak nie ma wyjaśnienia jakie są waruni bezpieczniego hasła. Po zmianie hasła pojawia się okno logowania, w którym w polu dla e-maila wpisana jest domyślnie nazwa użytkownika.

Konto założone przez fejsbooka, nie wiadomo jakie ma hasło.
Nie ma polskich znaków w nazwie użytkownika

za dużo przycsków do logowania

zadanie 3: propose a way to conduct these tests”
disable two-step authentification
